Register pe kiraya chalana, ab **bahut mushkil** ho gaya hai.

Shop ho, flat ho, room ho ya godown — jo bhi kiraye pe dete ho, ye 4 problem aapko bhi roz face karni padti hai.

"Maine to de diya tha"

Kisi ke paas likha hua proof nahi. Do alag yaadein, aur mahine me ek baar jhagda.

Deposit ka hisaab gadbad

Kitna advance bacha hai — koi pakka nahi bata sakta. Har baar hath se jodna padta hai.

Register bharte-bharte thak gaye

Har kiraya, har part-payment, har reading — hath se likho, phir se check karo.

Har mahine peeche bhaagna

Call karo. Wo bolein "kal de denge." Phir call karo. Kisi ko sahi status pata hi nahi.

2-3 din

10-15 unit wale owner ka itna time jaata hai sirf kiraya follow-up me — **har mahine, hamesha.**

SOLUTION

Do apps. Ek live hisaab. 4 step — phir khud chalta hai.

1 Tenant add karo

Unit, rent, deposit, future increase — ek baar me. Purane tenant bhi, poori history ke saath.

2 Tenant ko app milta hai

Wo app kholke 6-digit PIN set karte hain, aur sirf apna hi lease dekhte hain.

3 Rent khud calculate hota hai

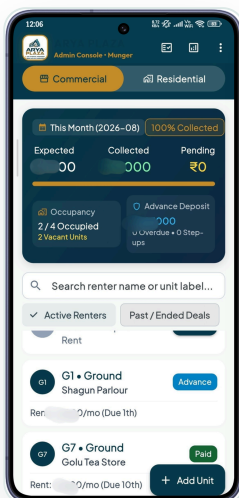

Har mahine sahi amount dikhta hai — deposit adjust, increase apply. Aapko kuch nahi karna.

4 Wo pay karein, aap confirm karo

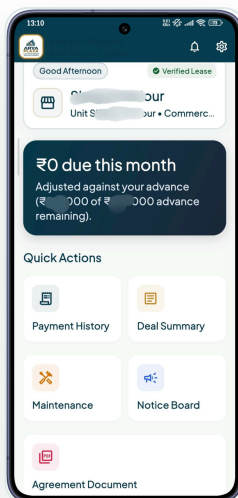

Jo bhi tarika ho, tenant pay karke report kare. Aap tap karke approve karo. WhatsApp pe receipt.

Jo bhi ek real property ko chahiye, sab **yahan hai.**
